

CAR GODS

Paint Protection

In association with

POLYMERIC SHIELD

PAINTWORK PROTECTION

PROTECTS
AGAINST:

Bird Lime

UV Rays

Mud

Swirl Marks

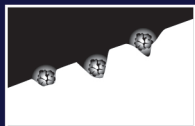

Acid Rain

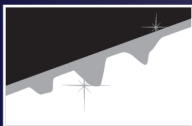

Road Salt

TECHNOLOGY

Without treatment, dirt sticks in the micro cavities of the paintwork.

Application creates a smooth surface that dirt cannot stick to.

Dirt and water will easily sheet off.

The Polymeric Shield is a blend of highly durable nano-polymers specifically designed to chemically bond to your paintwork. This creates a protective barrier that guards your vehicle against contaminants, whilst also enhancing the depth of gloss and prolonging the paintwork's flawless finish. Once applied, Polymeric Shield works to protect your paintwork, making future washes quicker and easier, leaving your vehicle protected and looking pristine.

INTERIOR ARMOUR

FABRIC & LEATHER

PROTECTS
AGAINST:

Liquids

Food

Staining

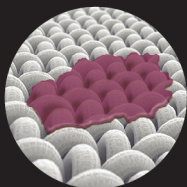

Fading

Dirt

FABRIC

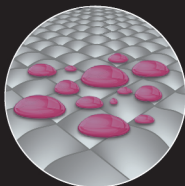

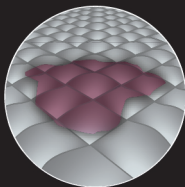

PRE-TREATMENT:
Spillages will
penetrate the
surface if left untreated.
Leaving unsightly hard
to remove stains.

POST-TREATMENT:
Spillages cannot
penetrate the surface
and can be easily
wiped away.

LEATHER

Interior Armour offers outstanding performance without compromising the appearance or breathability of the fabric, carpets, or leather in your vehicle. Our formula creates an invisible barrier with excellent water and oil repellency that prevents liquids from penetrating the surface and causing staining.
